Description:

The Ap Thomas Partnership were employed by Welsh Historic Inns as architects to provide full architectural services to refurbish, extend and upgrade the facilities in the prominent Bull Hotel which is located in the centre of the market town of Llangefni. The Partnership also assisted Welsh Historic Inns to apply for and secure grant assistance for major elements of the project.

The works involved extensive adaptations to a historic listed building and the phasing of the construction works to allow some parts of the building to continue in use whilst the major refurbishment works were carried out. The construction works were carried out by local general contractors and specialist subcontractors from further afield.

The hotel now has upgraded facilities including provisions for disabled guests and the market town has a valuable and attractive asset at its core.
